I am a versatile and innovative creator of web sites and apps with skills in UX, design, and development. My experience in all phases of production allows me to approach creations holistically. This makes things attractive, usable, and maintainable. It also lets me push limits in the right places to generate new ideas and executions.

Some of My Skills

- Responsive Interface/Web Design
- User Experience (UX)
- Programmatic/Dynamic Animation
- Adobe CC (Photoshop, Illustrator, InDesign, etc.)
- HTML5, CSS3, JavaScript (including ES6)
- Sass/SCSS and Less
- Node
- PHP
- Craft, WordPress, and other CMSs
- Gulp and Grunt
- Version Control (Git, Mercurial, SVN)

Notable Work Experience

Campbell Ewald

Developed and maintained web sites using modern, clean, maintainable strategies. Built and maintained sites using Node, Craft CMS, and WordPress. Helped to pioneer a modular approach to design and development, decreasing development times while giving content editors more creative freedom within the systems.

Front End Developer

2014 - present
Detroit, MI

ePrize (now HelloWorld)

Developed promotions for numerous high-profile brands including the NHL, Victoria's Secret, and Coca-Cola. Created several re-usable jQuery plugins in order to repeatedly deliver high quality products efficiently. Created advanced interactive experiences using modern techniques, including canvas, to provide compelling user experiences on all devices (for example, a scratch-to-win instant win game).

Interface Developer

2011 - 2013
Pleasant Ridge, MI
